LAWN SEED PLANTING INSTRUCTIONS

(Provided you use permanent sorts which are high priced without timothy). If much timothy is mixed in cheaper lawn grass, replanting should be done every year.
GRADE SOIL — PERFORATE OR SPADE SOIL 5 to 8 INCHES — FERTILIZE SOIL — RAKE SOIL SMOOTH — BROADCAST (sow) GRASS SEED THICKLY — RAKE SEED IN — ROLL OR POUND — WATER LIGHTLY—RAIN EFFECT SPRINKLER — SEEDING TIME, APRIL TO NOVEMBER.

Fall seeding is preferable—gives the lawn a weedless start for the spring.

Don't cut young grass too close,

Roll every week,

Keep soil continually aerated—with sand—**TOP DRESSING** and frequent hard iron raking or spiking,

THE EARTH MUST BREATHE—otherwise you will have a cement patch instead of a soft carpet,

Top dress every two months with top soil, humus or peat moss a little sand and fertilizer, and a few handfuls of lawn seed. About a pailful of each all mixed together to be sprinkled and raked evenly all over the lawn,

After you have a lawn—**soak it**—don't sprinkle it lightly. **SUNSHINE** may burn a lawn—watering in the shade will show results. Water thoroughly every few days—not a

few minutes every evening. Remember, wholesale dealers pay as high as \$1.00 a pound for certain Bent and imported Grasses for turf purposes, therefore the higher the price, the better your lawn.

FERTILIZER RATES OF APPLICATION.

per 1000 sq. feet recommended by best authorities.	
5 lbs. (10x100) or (20x50) or (30x33) sq. feet.	
18 lbs. encourages weeds and clover.	
16 lbs. organic high in nitrogen.	
24 lbs. encourages weeds and clover.	
40 lbs. for clay soil. Not a fertilizer.	
8 lbs. encourages weeds and clover.	
6 lbs. discourages weeds and white clover. Encourages bent grasses and Red Top.	
Both retain moisture.

NON-WARRANTY. We give no warranty, express or implied, as to description, quality, productiveness or any other matter of any seeds, bulbs, or plants we send out, and will not be responsible for the crop. As bearing on the above, the following remarks, taken from a recent Bulletin of the U. S. Department of Agriculture, are interesting: "Without attempting to discuss the arguments for the seedsman's disclaimer pro and con, the fact remains that reputable seedsman stand back of their seeds and do not knowingly and willfully sell seeds that are unfit for planting purposes."
